

7065

Workgroup Document System

Konica

A Networkable 65ppm Printer/Copier.

True print-on-demand functionality comes to the workgroup. High-speed printing and copying, advanced production finishing, easy-to-use controls. The Konica 7065 delivers the speed and performance needed for today's most demanding business applications. From the face-up document feeder and intelligent bypass, able to handle heavy stock, to the finisher able to produce saddle-stitched booklets. From 65 page-per-minute printing and copying to touch-screen simplicity even a novice can master. The Konica 7065 Workgroup Document System. Think of it as adding a print shop to your workgroup.

7065 Highlights

- ▶ 65ppm Printing/Copying
- ▶ 1 to N Page Processing
- ▶ Tandem Copy/Tandem Print Simultaneously
- ▶ Advanced Finishing Capabilities
- ▶ 300,000 Maximum Monthly Copy Volume
- ▶ 32 MB Standard Memory Capacity
- ▶ 7,100 Sheet Maximum Paper Capacity
- ▶ Dynamic Network Compatibility
- ▶ Intuitive Touch Screen Controls

7065

Workgroup Document System

Features

► Real-time/Dual Scanning Technology:

Originals scanned face up from the document feeder pass over the fixed scanner, reducing moving parts and improving performance and reliability. Originals scanned from the platen remain stationary while the scanner moves across the platen.

► Heavy Stock Availability:

Feed heavy stock (up to 65 lb. cover) through bypass. Perfect for production-quality booklets, pamphlets and reports.

► Workgroup Workhorse:

With a maximum recommended volume of 300,000 prints-per-month and an increased toner capacity of 33,000 impressions, the Konica 7065 is the high-volume solution for the high-volume workgroup.

► Simultaneous Tandem Copy and Tandem Print:

The Konica 7065 is the first digital printer/copier that can be configured for both tandem printing and tandem copying at the same time. Producing up to 130 pages-per-minute as either a printer or copier.

► Production Finishing:

Choose either the standard 2,200-sheet finisher with 8-position stapling or the optional 3,200-sheet booklet maker with folding, saddle stitching and trimming (avail. 4th qtr. '99).

► Electronic Recirculating Document Handler (ERDH):

Originals are received and stored as compressed digitized data for unlimited set production.

► Large Capacity Paper Tray:

Doubles standard capacity from 3,600 to 7,100 sheets.

► Page Printer/Document Printer:

With the optional IP-303 print controller, the 7065 can perform both page printing and document printing.

The Konica 7065 is the document system that delivers high-volume print-on-demand applications to the workgroup. With print and copy speeds of 65 pages-per-minute, the 7065 is designed to meet the demands of today's fast-paced, high-pressure office environments. With its optional finisher that puts powerful functions like folding, saddle stitching, and optional trimming literally at users' fingertips, the Konica 7065 is functionality that delivers productivity.
